Walk In Wardrobes

Brochure 2022

SIPARIO

Sipario is a diverse open module system. Allowing you to create a walk in wardrobe that suits any desired space. Perfect combined with modules with doors, or completely open, Sipario showcases a modern take on traditional walk in wardrobes. Equipped with a range of different internal accessories, Sipario can be presented with or without additional decorative framing around the structures edges.

ANTEPRIMA

The Anteprima walk in wardrobe is a customizable storage solution, which in its simplist form is a panel system, allowing for accessories to be fixed to the vertical uprights that connect everything together. Accessories come in the form of practical storage solutions: drawers, shoe racks, trouser rails, cubbies and much more. A completely bespoke and versatile walk in wardrobe, Anteprima is perfect for any scenario.

CHANEL
FORM

SNAKE

The Snake wardrobe system is the ideal hanging storage solution for any small space or indeed any area of the home. There are endless different configurations with the metal hanging rails. The Snake rails are made from brushed steel and are available in a selection of sizes, which can be placed vertically or horizontally against the wall to create the hanging configuration you need.

ISLAND

The Island is a storage system that appears in the middle of the room like a dreamy oasis, an island incorporating the modern design of walk in wardrobes.
Useful and versatile to complete any walk in wardrobe, thanks to the possibility of being equipped with drawers, shelves and other storage solutions. It also provides space for jewellery, accessories & trinket leather trays, inside an elegant glass case to house and protect your treasures.

OPEN

The Open walk in wardrobe system offers the sense of no boundaries. Thanks to the open modules you can store clothes with pride and compose solutions that are completely suited to the designated space.
Perfect for creating a contemporary wardrobe space, there are endless possibilities. Overall, a versatile walk in wardrobe offering a modern design and practical diversity for different ways of storing and displaying.

HANGAR

Hangar is a contemporary panel system. It utilizes vertical uprights as a structural component, using the floor and ceiling to support the weight of the vast array of storage components available, that fit between.
There are a wide selection of accessories available, making this a versatile product that can be composed to suit any walk in wardrobe requirements.

NISMO

NOVENOVE

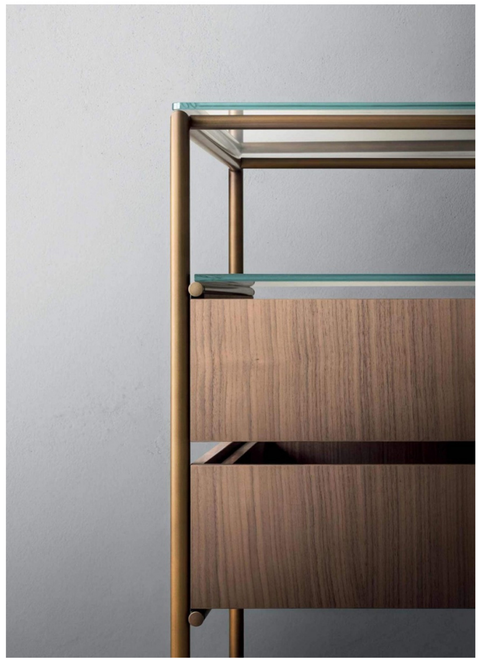
Elegance and efficiency is what makes the Novenove walk in the ideal solution for any household.
A modern panel system, the Novenove has a range of different components available. It blends together the needs for functionality and contemporary aesthetic values in complete harmony. A unique and thoroughly contemporary walk in wardrobe with distinctive u-shaped shelves.

LT40 ISLAND

LT40 showcases its enigmatic beauty in truly modern fashion, with versatility at its core. Created to suit any environment, LT40 can be produced with many different elements including: drawers, glass display cases & seating, just to name a few. Bring your walk in wardrobe together with this stunning island system, making it a space to be truly envious of.

AREIA ISLAND

Wood and glass are the stars of the show in Areia, an elegant chest of drawers transformed in to an island. Clean design is at the heart of Areia, whose simple lines are complemented by the combination of metal tubing, glass and wood. Accentuating Areia's sleek character are the extra-light glass shelves, which break up the island and soften its striking appearance.



DRESSING

A contemporary panel based system, designed to fit harmoniously in the modern household, Dressing boasts versatility and opulence. The product is an elegant and practical solution, for creating a bespoke and luxury walk in wardrobe space. You can seamlessly create a functional storage space combined with a dressing area to maximize use and practicality.

PARIS MON AMOUR

HECTOR NIGHT

Conceived as a perfectly modelled wall system that is also easy to modify and transform, Hector Night is a protagonist of contemporary furniture. It is as an extraordinary expression of what a luxury walk in wardrobe should be. Various elements come together to reach your space's maximum potential.
